DETAILED ACTION

Allowable Subject Matter

Claims 7, 11, 12, 17 and 18 are allowed.

The following is an examiner's statement of reasons for allowance: As to claims 7 and 12, the prior art, such as Aycock, does specify requiring standards in manufacturing. They do not, however, specify all the specific materials necessary as claimed in claims 7 and 12, such as manganese, phosphorous, etc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US PAT 5,737,581 to Keane, Keane discloses a system for quality assurance in suppliers, Keane not teach using the specified materials as a guide to quality assurance to choose a supplier, Japanese Patent JP406299298A to Kawai et al., Kawai et al. teach a composition for high speed tool steel, such as that used in dies, they do not however, teach all the specific components and further, do not teach using this as a guide on buying dies, Moh's Scale of mineral hardness, Moh's Scale is used to compare materials as to their hardness, Moh's Scale does not, however, teach this as being used to purchase
